

Looking After Your Neighbourhood

Worksheet Pack

A range of worksheets to support the activity have been created.

Action and Impact Activity and Worksheets		
Original Picture		
Match the Impact to the Action	Pupils draw a line to match the impact icons to the picture.	Pupils draw a line to match the impact statements to the picture. All impacts. Odd numbered impacts. Even numbered impacts.
Action and impact Table	Pupils draw a line to match the statements.	Pupils to write an action and its associated impact.
Good Eco Choices Activity and Worksheets		
Original Picture		
Match the Good Eco Choice to the Bad Neighbour	Pupils draw a line to match the impact statements to the picture.	
Bad Neighbour/ Good Eco Choice Table	Pupils draw a line to match the impact icons to the picture.	

Match the impacts to the numbers in the picture.

Use the key below to help.

IMPACT KEY

	Air pollution
	Noise pollution
	Water pollution
	Litter pollution
	Waste resources
	Annoy neighbours

Loss of heat. Waste of fuel.

Litter pollution.
Untidy neighbourhood.
Nuisance.

Loss of fossil fuels.
Air pollution from smoke.

Loss of heat. High use of fuels.

Loss of fossil fuels.
Air pollution from smoke.

Waste of water.

Recyclables going to energy from waste. Loss of natural resources.

Water contamination and pollution.

Litter pollution.
Untidy neighbourhood.
Nuisance.

Air pollution from exhaust. Noise pollution. Waste of fuel. Dangerous.

Air pollution.
Annoy neighbours.

Litter pollution.
Untidy neighbourhood.
Plastic in our rivers and seas.

Water contamination and pollution.

Action and Impact

An 'action' is something you do. How it affects something, is an 'impact'.

Match the Action to the Impact. We have done one to get you started.

Extension: tick actions that make a home less eco-friendly.

Impact	Action	Impact
	1 Window left open, heating on.	Noise pollution. Annoy neighbours.
	2 Man throwing litter in the gutter.	
Air pollution from exhaust. Noise pollution. Waste of fuel. Dangerous.	3 Man burning rubbish in the garden.	Fly-tipping. Environmental pollution. Untidy neighbourhood.
Waste of water.	4 Playing loud music with window open.	
Loss of heat. Waste of fuel.	5 Illegal waste dumped in the layby.	Too much fuel used.
	6 Children putting things that could be recycled or composted in the rubbish bin.	
Litter pollution. Untidy neighbourhood. Plastic in our rivers and seas.	7 No loft or wall insulation.	Recyclables going to energy from waste. Loss of natural resources.
	8 Using a hose pipe to water the garden.	Loss of fossil fuels. Air pollution from smoke.
Air pollution. Annoy neighbours.	9 Open coal fire.	Water contamination and pollution.
	10 Pouring chemicals down the drain.	
Loss of heat. High use of fuels.	11 Speeding car.	Litter pollution. Untidy neighbourhood. Nuisance.
	12 Youth spitting chewing gum on the floor.	
	13 Boiler turned up full.	

Action and Impact - Even Numbers

An 'action' is something you do. How it affects something, is an 'impact'.

Match the Action to the Impact. We have done one to get you started.

Extension: tick actions that make a home less eco-friendly.

Impact	Action	Impact
Waste of water.	2 Man throwing litter in the gutter.	Water contamination and pollution.
Litter pollution. Untidy neighbourhood. Plastic in our rivers and seas.	4 Playing loud music with window open.	Recyclables going to energy from waste. Loss of natural resources.
Noise pollution. Annoy neighbours.	6 Putting things that could be recycled or composted in the rubbish bin.	Litter pollution. Untidy neighbourhood. Nuisance.
	8 Using a hose pipe to water the garden.	
	10 Pouring chemicals down the drain.	
	12 Youth spitting chewing gum on the floor.	

Action and Impact - Odd Numbers

An 'action' is something you do. How it affects something, is an 'impact'.

Match the Action to the Impact. We have done one to get you started.

Extension: tick actions that make a home less eco-friendly.

Impact

Action

Impact

Air pollution from exhaust. Noise pollution. Waste of fuel. Dangerous.

Loss of heat. Waste of fuel.

Air pollution. Annoy neighbours.

Loss of heat. High use of fuels to heat house.

1 Window left open, heating on.

3 Man burning rubbish in the garden.

5 Illegal waste dumped in the layby.

7 No loft or wall insulation.

9 Open coal fire.

11 Speeding car.

13 Boiler turned up full.

Fly-tipping. Environmental pollution. Untidy neighbourhood.

Too much fuel used.

Use of fossil fuels. Air pollution from chimney smoke.

Looking After Your Home and Neighbourhood Worksheet

Use this worksheet to record your ideas. We have provided you one to get you started.

Action	Impact
<i>Dropping litter.</i>	<i>Litter pollution. Plastics in our seas. Makes the neighbourhood look untidy.</i>

Use smokeless fuel.

Close windows if playing loud music or turn it down.

Keep Britain Tidy. Put litter in bins.

Keep Britain Tidy. Ensure litter is disposed of properly.

Close windows when heating is on. Save energy.

Too much fuel used.

Always recycle correctly. This saves resources.

Drive at or below the speed limit. Be safe. Save fuel.

Take rubbish to local Household Waste Recycling Centre.

Use water wisely with a watering can. Why not have a water butt too?

Take paints / chemicals to HWRC for proper disposal.

Insulate loft and cavity walls. This will save energy.

Do not fly tip. Take unwanted items to HWRC.

Good Eco Choices

Match the Good Neighbour actions to the Bad Eco Choice. We have done one to get you started.

Extension: tick actions that you or your family already do.

Good Neighbour	Bad Eco Choice	Good Neighbour
Do not fly tip. Take unwanted items to HWRC.	1 Window left open, heating on.	Close windows if playing loud music or turn it down.
Drive at or below the speed limit. Be safe. Save fuel.	2 Man throwing litter in the gutter.	Use water wisely with a watering can. Why not have a water butt too?
Too much fuel used.	3 Man burning rubbish in the garden.	Keep Britain Tidy. Put litter in bins.
Close windows when heating is on. Save energy.	4 Playing loud music with window open.	Take rubbish to local Household Waste Recycling Centre.
Always recycle correctly. This saves resources.	5 Illegal waste dumped in the layby.	Insulate loft and cavity walls. This will save energy.
Use smokeless fuel.	6 Children putting things that could be recycled or composted in the rubbish bin.	Take paints / chemicals to HWRC for proper disposal.
Keep Britain Tidy. Ensure litter is disposed of properly.	7 No loft or wall insulation.	
	8 Using a hose pipe to water the garden.	
	9 Open coal fire.	
	10 Pouring chemicals down the drain.	
	11 Speeding car.	
	12 Youth spitting chewing gum on the floor.	
	13 Boiler turned up full.
