

Packaging Label Scavenger Hunt.

Did you know?

There are lots of labels on packaging but not all of them tell you if the product can go in your recycling bin.

Challenge

1 Go on a hunt through your kitchen cupboards, fridge and freezer and tick which of the following labels you find.

2 Go to www.recyclenow.com/recycling-knowledge/packaging-symbols-explained and draw a line match the definition to its label.

Tick if you find it.

Match the definition to the label.

Tick if you find it.

Not all Councils collect:
check locally.

'Green dot': Producer
contributes to a packaging
recovery scheme.

'Mobius Loop'. It could be
recycled, but doesn't mean
it can go in your recycling
bin.

The number is the 'resin'
code for the type of plastic.

Made from recyclable
aluminium.

Keep Britain Tidy logo. Dispose
of item properly.

Wood based product from
forests that are well managed.

Widely recycled by 75% or
more Local Authorities.

An item that is collected by
less than 20% of all Councils.

Recyclable glass.
