

# Go Green for Halloween Scary Mummies

## What You Will Need:

An empty and clean plastic pop bottle  
Strips of material or old, clean bandages

Googly Eyes or buttons  
PVA Glue or a glue stick

Plastic spider or make your own from pipe cleaners

*PVA Glue can mark clothes.  
Use scissors with caution.*

## What To Do:

1. Remove any labels from your bottle and make sure it is clean and dry both inside and out.
2. Put glue on your bottle and start to wrap the strips of material or bandages around it.
3. Once your bottle is wrapped, tuck in the loose end of the strip of material or bandage.
4. Stick on the googly eyes or make your own from paper and a black pen.
5. Add your spider and if you feel really creative, draw on a mouth or make one and stick it on.
