

Waste and Recycling

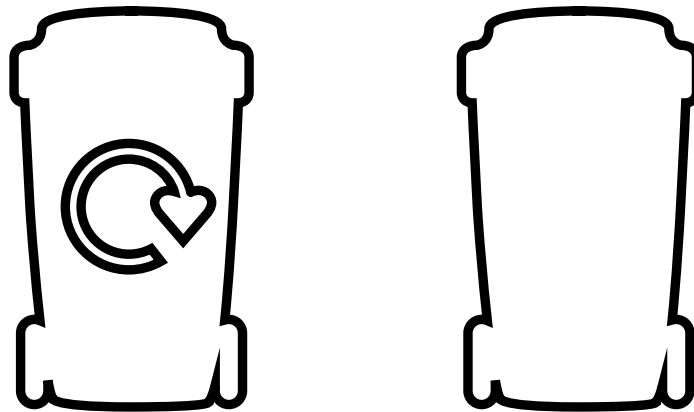

WHICH BIN?

The Waste Warriors need your help to sort out your waste at home. Look at the 2 bins below. One is a recycling bin (with the recycling sign on it) the other is a general waste bin.

What colour is your recycling bin at home? (Colour the recycling bin in the picture below the same colour).

What colour is your general waste bin at home? (Colour the general waste bin in the picture below the same colour).

Look at the 10 items below and find the ones that can be recycled.

Check that you are correct and then colour them the same colour as your recycling bin.

The other items cannot be recycled and go in your general waste. Colour them the same colour as your general waste bin.
