

# S45 (1a) Application

New Metered Water Connection

.....  
(Connection To Existing Water Main)

April 2020

## Application For Water Connection

Please refer to our New Connection Charges Arrangements for further details relating to this Application - Section 1(a) & (b).

### A. Applicant details:

Name: \_\_\_\_\_ Contact Name: \_\_\_\_\_  
(Company name if appropriate) (If different)

Address: \_\_\_\_\_

Postcode: \_\_\_\_\_

### Contact details:

Day: \_\_\_\_\_ Mobile: \_\_\_\_\_

Fax no: \_\_\_\_\_ Email: \_\_\_\_\_

### B. Site / Supply Details:

Proposed Development: \_\_\_\_\_

Is this a conversion of an existing building? ☐ Yes ☐ No

Site address: \_\_\_\_\_

Postcode: \_\_\_\_\_

Please indicate the current or former land use: \_\_\_\_\_

If the land was previously developed, has there been a water supply to the site within the last 5 years?

☐ Yes ☐ No ☐ Unknown

If you answered 'Yes':

a. If commercial, please complete section 'J2' and identify the former peak demand: \_\_\_\_\_ (l/s)

b. If housing, how many houses: \_\_\_\_\_

# Application For Water Connection

Please refer to our **New Connection Charges Arrangements** for further details relating to this Application - Section 1(a) & (b).

## C. New Connection & Upsizing of Existing Connections

If this section does not apply to your site, please leave blank and proceed to Section D

Sub -sections 1 – 3 ask about the type of property requiring a supply or the proposed commercial use for which the water supply is needed. Please complete the parts that apply to your site and leave the rest blank.

### 1. Multiple dwellings, within one building (excluding semi detached & terraced):

Please tick the type of development that applies:

☐

Flats

☐

Apartments

☐

Sheltered Housing

Number of floors / height of building: \_\_\_\_\_

Number of self contained dwellings: \_\_\_\_\_

Number of dwellings with shared facilities: \_\_\_\_\_

Please detail any shared common facilities, e.g. phone: \_\_\_\_\_

If you believe that the building qualifies for a bulk metered supply, please provide the following details:

Required connection size: \_\_\_\_\_ mm (OD)

Anticipated peak flow rate: \_\_\_\_\_ (l/s)

Anticipated continuous flow rate: \_\_\_\_\_ (l/s)

The person or body who will sign the common facilities meter agreement: \_\_\_\_\_

Note: Bulk metered supplied are only usually considered for genuine sheltered housing, particularly high buildings or where the dwellings are not self contained. In such cases, a management company will be required to meet all future metered charges.

Is water required for the landlords use?

☐

Yes

☐

No

If this is a conversion of an existing property, please ensure that you complete section 'J2'.

### 2. Individual Properties:

Please tick the type of property that applies:

☐  
☐  
☐

Houses (incl. semi detached & terraced)

Commercial / Industrial units

Community buildings

#### a. Supplies not exceeding 32mmOD:

Plot numbers (25mm) \_\_\_\_\_

Plot numbers (32mm) \_\_\_\_\_

If any of the supplies can be laid in a shared trench with a twin meter box, please mark these on your site plan and ensure that the plot numbers are clearly indicated.

Where multiples of pipes are to be brought out in shared trenches for flats, or for properties accessed by shared drives, please indicate the location of the private supply pipes and the associated plot numbers on your plan. This will assist in the appropriate location and selection of the meter chambers.

#### b. Supplies larger than 32mmOD:

Required connection size: \_\_\_\_\_ mm (OD)

Anticipated peak flow rate: \_\_\_\_\_ (l/s)

Anticipated continuous flow rate: \_\_\_\_\_ (l/s)

## Application For Water Connection

Please refer to our New Connection Charges Arrangements for further details relating to this Application - Section 1(a) & (b).

### C. New Connection & Upsizing of Existing Connections (Continued)

#### 3. Other:

Please tick the appropriate box:

<input type="checkbox"/>	Swimming Pool
<input type="checkbox"/>	Irrigation
<input type="checkbox"/>	Car Wash
<input type="checkbox"/>	Animal Trough
<input type="checkbox"/>	Other (please specify): _____

Required connection size: \_\_\_\_\_ mm (OD)

Anticipated peak flow rate: \_\_\_\_\_ (l/s)

Anticipated continuous flow rate: \_\_\_\_\_ (l/s)

### D. Relocation of an existing supply

If this section does not apply to your site, please leave blank and proceed to Section E

Please indicate your new preferred point of entry on a site plan

What size is the supply? \_\_\_\_\_ mm (OD)

### E. Fire Supplies

If this section does not apply to your site, please leave blank and proceed to Section F

What kind of fire fighting equipment will you be installing?

☐

Hydrant

☐

Sprinkler

☐

Hose reel

Required connection size: \_\_\_\_\_ mm (OD)

Required flow rate: \_\_\_\_\_ (l/s)

### F. Separation of common or shared supplies

If this section does not apply to your site, please leave blank and proceed to Section G

Is the existing supply metered?

☐

Yes

☐

No

How many new separate supplies do you require? \_\_\_\_\_

What are these to serve? \_\_\_\_\_

(Please state property numbers)

Which property will keep the existing supply? \_\_\_\_\_

## Application For Water Connection

Please refer to our **New Connection Charges Arrangements** for further details relating to this Application - Section 1(a) & (b).

### G. Water for Building Purposes

If this section does not apply to your site, please leave it blank and proceed to Section H

Will you be using water for building purposes?

☐

Yes

☐

No

Are you applying for a connection detailed elsewhere on this application form that you wish to utilise for building water purposes?

☐

Yes

☐

No

Is there an existing water supply to the site that can be utilised for building water purposes?

☐

Yes (metered)

☐

Yes (un-metered)

☐

No

Will you want to keep the supply as a permanent connection after you finish the work on the site?

☐

Yes

☐

No

If 'Yes' please state which plot it will serve: \_\_\_\_\_

If you require a building water supply greater than 25mmOD, please complete the following:

Required connection size: \_\_\_\_\_ mm (OD)

Anticipated peak flow rate: \_\_\_\_\_ (l/s)

Anticipated continuous flow rate: \_\_\_\_\_ (l/s)

How long will you require the building water supply?

☐

Weeks

☐

Months

☐

Years

### H. Water Regulations

Will a WIAPS accredited Plumber be self certifying the plumbing installation for compliance with the Water Regulations or will you require a full Veolia Water Projects Water Regulation Inspection?

☐

WIAPS Self Certification

☐

VWP Water Regulations Inspection required

### I. Sewerage

Will the property/properties/site be connected (directly or indirectly) to the public sewerage system?

☐

Yes

☐

No

# Application For Water Connection

Please refer to our New Connection Charges Arrangements for further details relating to this Application - Section 1(a) & (b).

## J. Fittings Table:

This table should be used for commercial units i.e. offices, factories, hotels, etc, and for flats that will be served by a bulk supply and a Common Billing Agreement entered into. It is not required for single houses, nor self-contained dwellings units (such as flats) that will be individually supplied.

### 1. Proposed Fittings for New Development (if a number of units are proposed please detail separately)

Plot or unit no.	WC flushing cistern	Wash basin - in house	Wash basin - elsewhere	Bath – tap size 20mm nominal	Bath – tap size over 20mm	Shower	Sink – tap size 20mm nominal	Sink – tap size over 20mm	Spray tap	Bidet	Domestic Appliance	Commercial / Communal Appliance	Any other water outlet	Loading units Total / Unit
	2.0	1.5	3.0	10.0	22.0	3.0	3.0	5.0	0.5	1.5	3.0	10.0	3.0	

This section only needs to be completed for ‘brown field’ sites. It does not apply where the site is being developed for the first time.

### 2. Water fittings within the original building(s):

Plot or unit no.	WC flushing cistern	Wash basin - in house	Wash basin - elsewhere	Bath – tap size 20mm nominal	Bath – tap size over 20mm	Shower	Sink – tap size 20mm nominal	Sink – tap size over 20mm	Spray tap	Bidet	Domestic Appliance	Commercial / Communal Appliance	Any other water outlet	Loading units Total / Unit
	2.0	1.5	3.0	10.0	22.0	3.0	3.0	5.0	0.5	1.5	3.0	10.0	3.0	

### Notes:

- 1. ‘House’ means any building which is occupied as a private dwelling house or which, if un-occupied, is likely to be so occupied and, accordingly, includes a flat
- 2. ‘Bath’ includes a whirlpool or Jacuzzi
- 3. ‘Domestic Appliance’ means an appliance such as a dishwasher, a washing machine and a waste disposal unit in a house. The minimum number of total loading units is 6.
- 4. ‘Commercial / Communal Appliance’ means an appliance, such as a dishwasher, a washing machine and a waste disposal unit elsewhere than in a house (including in communal facilities).
- 5. ‘Any other water outlet’ includes taps (such as outside taps) but not a urinal or water softener.
- 6. Reference to any fitting includes reference to any plumbing, outlet, dedicated space or planning or other provision for that fitting

# Application For Water Connection

Please refer to our **New Connection Charges Arrangements** for further details relating to this Application - Section 1(a) & (b).

## K. Contaminated Land Check – Site History Questionnaire

Veolia Water Projects Limited needs to assess whether there is a risk of contaminants in the ground permeating through any proposed water pipes, as this in turn could result in contamination of the drinking water supply. This form is designed to enable us to assess that risk. Where contamination does exist, VWP will specify the use of barrier pipe made of a high specification material. Any private pipework will also need to be of a similar specification.

Have you commissioned a soils analysis, which includes a contamination report?

☐

Yes

☐

No

If 'Yes', you do not need to complete Sections '1' and '2' provided you attach the following;

- A copy of the contamination test data showing details of contamination concentrations (a general summary will not be sufficient)
- A plan showing the position where each core sample was taken.

Please note, the Water Industry require samples to be taken to a depth of 1m and will be analysing the results in accordance with threshold levels recommended by WRAS.

### 1. Former Land Use

Please provide a tick against any of the following purposes for which the site or an adjacent site has previously been used:

☐  
☐  
☐  
☐

Petrol filling station

Landfill site

Burial ground

Scrap yard

☐  
☐  
☐  
☐

Other fuel storage

Motor mechanics

Tannery

Military camp

☐  
☐  
☐  
☐

Chemical works / storage

Coal yard

Docks or boat yard

Vehicle parking area

### 2. Former Site Activities

Please tick to indicate if any of the following activities / incidents has happened on the site:

☐

Home motor mechanics

☐

Fuel spillage  
(e.g. central heating oil, kerosene)

☐

Fly tipping

### 3. Visual Site Inspection

A visual inspection of the site for any obvious signs of contamination shows the following:

☐

No obvious signs of contamination

☐

Evidence of possible contamination

### 4. Summary of Site History

Please provide brief details of the site history over the past 100 years, unless already provided in a soils report. (Old ordnance survey plans are acceptable evidence of land use where first hand knowledge or other evidence is not available).

### 5. Checklist and Declaration

I hereby confirm that I have completed this questionnaire to the best of my ability and that every attempt has been made to ensure that the information provided is accurate:

Signature: \_\_\_\_\_ Full Name: \_\_\_\_\_

Date: \_\_\_\_\_ Position: \_\_\_\_\_

# Application For Water Connection

Please refer to our New Connection Charges Arrangements for further details relating to this Application - Section 1(a) & (b).

## L. New Water Connection Location

Please indicate the location of your preferred point of connection and number of connections required.

# Application For Water Connection

Please refer to our New Connection Charges Arrangements for further details relating to this Application - Section 1(a) & (b).

## M. Checklist and Declaration

I enclose the following documents:

- |                          |   |
|--------------------------|---|
| <input type="checkbox"/> | Payment as per New Connection Charging Arrangements available on our website.                           |
| <input type="checkbox"/> | A site location layout plan (2 copies).   |
| <input type="checkbox"/> | A site layout plan showing points of entry for the connections (2 copies)                               |
| <input type="checkbox"/> | Completed 'Contaminated Land Check' questionnaire (incl. any appropriate soil report and documentation) |
| <input type="checkbox"/> | Pre-construction information  |

I / We apply for an estimate for the provision of water service pipes to serve the premises / site scheduled.

I / We understand that:

- The installation of the communication pipe by Veolia Water Projects Limited including payment of infrastructure charges is at the applicant's cost.
- The quotation will be based on Veolia Water Projects Limited undertaking all work in the 'street' in which the public water main is laid. The communication pipe will terminate at the boundary of the 'street' in which the public water main is laid; this will normally be the back edge of the footpath.
- All new supplies will be installed with a meter, which will be used for billing purposes. In the case of individual self contained dwellings, each one will usually have a separate metered supply; the only exception to this rule will be where Veolia Water Projects Limited acknowledges that there are engineering or administrative difficulties.
- Existing domestic dwellings with an un-metered supply that is subsequently upsized or re-located, will be permitted to remain on a rateable value for billing purposes.
- All plumbing work and installations must comply with the Water Supply (Water Fittings) Regulations 1999. A copy of the Property Inspection Certificate signed by a WIAPS approved Plumber or a Veolia Water Projects Water Regulations Inspector will be required before a live connection can be provided.
- Payment for the service will be required in advance, the private supply pipe must be laid and pass a trench inspection before the water connection can be made.
- I / We undertake to notify the Company as soon as possible of the occupant, date of occupation and postal address of each property concerned and understand that I / We will be responsible for any Water Charges until this information is provided.

Additional notes: \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

I have filled in all the relevant sections of this form and the Fittings Table(s) (where appropriate)

I confirm that to the best of my knowledge the information I have supplied is complete and correct.

Signature: \_\_\_\_\_ Full Name: \_\_\_\_\_

Date: \_\_\_\_\_ Position: \_\_\_\_\_

Please forward your complete submission including payment to: Veolia Water Projects Limited,  
 PO Box 3920 Swindon, Wiltshire, SN5 1BW
